This VBS Script down	load and install the latest "unofficial" list of rad	io stations for RadioSure.	

This list of stations is a conversion (made by Francois-neosurf) of the "Radio-Browser.info" database.

Place this script in the RadioSure folder, then you can launch it with a ".bat, a shortcut or the task scheduler :

https://github.com/GHbasicuser/RB2RS-Database-Updater

Extract its contents into the RadioSure folder. (Where the "RadioSure.exe" file is located.)

Right-click on the "db-update.vbs" file in the RadioSure folder, then click on "**Send to**" and choose "**Desktop (create shortcut)**".

Good to know : You can get a better rendering by clicking on "**Change icon**" and choosing the main icon of "**RadioSure.exe**" (e.g.) into the RadioSure folder.

You can now validate by clicking on OK.
